

KLION SOFTWARE – TRIAL VERSION INSTALLATION INSTRUCTION

Rev. April 2025

Download and install the software

1. Log-in into Sisgeo web site. If you do not have an account, you can create you account from this link <https://sisgeo.com/registration/>
2. From KLION product page <https://sisgeo.com/products/b-r-a-in-mems-probe-inclinometer/klion-software-for-inclinometers-and-extensometers/> , download the software file clicking on the “SOFTWARE DOWNLOAD” icon:

SOFTWARE

3. Un-zip the files and run the set-up.exe file

Request the TRIAL licence key

4. Request a temporary trial license key sending a message to assistance@sisgeo.com with your full name, company name, e-mail address and phone number. In few time you'll receive the TRIAL license key as a *.txt file.

How to use the trial version

5. The received trial license file, should be installed in the following root:
C: \ Users \ YOUR_USER \ Documents \ Klion \
The name of the root “Users” and “Documents” may change following the language of your Windows operative system.
6. Now run KLION software.
Enjoy!
